## 2. New in 6.2.11

This document describes the enhancements and modifications included in the latest release of Data360 DQ+, and highlights any changes that may affect your current implementation.

For information on previous releases, and for end user and administration topics, please see the integrated product help. You can access the help by clicking the Help icon in the corner of the screen:

**Note:** This release applies only to enterprise edition of the product.

### 2.1 Other Changes

- Fixed an issue where display of '<' and double quote characters was shown as escaped Unicode characters in case store, data entry, dashlets, analysis, notes and activity log screens. Also prevents XSS attacks by sanitizing potential script injection which converts < and > characters into &lt; and &gt;.

### 2.2 Corrected issues

Issue Summary	Issue Number
Fixed an issue where a case screen with a text area field shows the html-style open bracket "<" as a Unicode escape character sequence instead.	ISX-11830

## 3. Fix pack installation - Enterprise only

**Note:** Fix packs are pushed to the cloud version of Data360 DQ+ automatically. The following steps only apply to the enterprise edition of the product.

To install this fix pack on the enterprise edition of Data360 DQ+:

1. Download the fix pack into the `/tmp` folder.
2. Give execute permission to the downloaded fix pack, for example:

```
chmod 777 dqplus_IS-6.2-202106101803-11-fixpack.sh
```

3. Extract the downloaded fix pack by running its name as a command, for example:

```
./dqplus_IS-6.2-202106101803-11-fixpack.sh
```

Extracting a fix pack for the first time will create a directory at:

```
/opt/infogix/dqplus-6.2/maintenance
```

4. Execute the `./apply-patch` command from within `/opt/infogix/dqplus-6.2/maintenance/dqplus_IS-6.2-202106101803-11-fixpack/bin`.

To verify that the fix pack has been applied, navigate to the **Help** menu in the product and select **About**. The product's Updates information should be updated.

### 3.1 Reverting the fix pack

- Execute the `./revert-patch` command from within `/opt/infogix/dqplus-6.2/maintenance/dqplus_IS-6.2-202106101803-11-fixpack/bin`

## 4. Contact us

If you encounter any technical issues, we recommend that you visit the support portal at [support.precisely.com](https://support.precisely.com).

### Community

Our product is constantly evolving and input from you is highly valued. If you have any suggestions, please contact the product team by submitting a feature request on the [Community](#).
