For information on previous releases, and for end user and administration topics, please see the integrated product help. You can access the help by clicking the Help icon in the corner of the screen:

> **Note:** This release applies to only cloud version of the product.

1.1 Corrected issues

Issue Summary	Issue Number
Fixed an issue where the download from dashboard with over a million rows fails after the prompt.	ISX-11579
Fixed an issue where a nested analysis with multiple output ports, when connected to another nested analysis, incorrectly provide the data for one output port to both inputs in the receiving nested analysis.	ISX-11574
Fixed an issue where no records are shown when the apply button is clicked on nested analysis nodes.	ISX-11582
